

## Let It Pour

Being caught in the rain may not sound like a luxurious experience, but what if it's a gentle tropical downpour, one that refreshes and invigorates as it drenches you in a soft, warm flow of crystal clear water? It's like a spa treatment, courtesy of Nature.

Now you can duplicate that feeling of natural pampering at home, thanks to the JADO collection of [Rain Shower Heads](#), which range in styles from timeless traditional to boldly contemporary models. Suddenly, stepping into the shower is like being handled by an elegant pair of kid gloves.

For added pleasure, JADO ups the luxury-shower ante with a selection of [Body Sprays](#), including a square flush-mount model that offers three functions — spray, mist, or combination — at the turn of its center dial.

Who knew that being rained on, sprayed, and misted all at the same time could be pure bliss?

## From Carter's Studio

Greetings! Showering need not be a purely utilitarian activity. With our JADO Rain Shower Heads and Body Sprays, even a quick shower turns into a luxurious experience.

### Hitting the Shower

How often do you shower? Once a day, or maybe twice? Two, three, or four times a week?

Take the survey [here](#).
