WINNER

NiR surface-mounted lamp, Nosanchuk

This digitally fabricated light fixture is made from a flat sheet of acrylic that has been laser-cut and assembled around a frosted glass tube, giving it a thoroughly modern shimmer.

RUNNER-UP

Aviator cocktail table, Kavante

Made from anigre wood and oxidized bronze, with two artfully hidden drawers on its sides, this streamlined cocktail table is ready for takeoff in both traditional and modern decors.

FINALIST

RPR Brag table, RockPaperRobot

A spin on the round brilliant-cut diamond, this Corian table appears to defy gravity, though a circular steel base anchors it. A glass top placed across two Brag tables doubles the fun.

FINALIST

Bracelet lamp, Goralnick

Based on the idea that lighting is the "jewelry of the home," the Bracelet lamp is made of impossibly thin swirls of iron stacked like bangle bracelets, so that they almost seem weightless.
